What to expect in this Seminar

Treatment of Autoimmune Diseases with Classical Homoeopathy – Case Presentations, Prescription, Course of Treatment and Therapeutic Results

Autoimmune conditions present some of the most intricate challenges in homoeopathic practice. In this intensive two-day seminar, Dr. Ambrish Vijayakar presents a thorough roadmap for understanding and treating these complex conditions.

Key Learning Points:

- Miasmatic and embryological evaluation of autoimmune pathologies
- Structured case taking and converting patient expressions into accurate mind and miasm rubrics
- Differentiating the constitutional simillimum in advanced tissue alteration
- Clear guidelines for potency selection, dosage, and repetition schedules
- Preventing suppression and ensuring progress strictly according to Hering's Law
- In-depth video case presentations with long-term follow-up and documented cures

About the Referent

Dr. Ambrish Vijayakar

Dr. Ambrish Vijayakar is a homoeopath par excellence and the leading head behind the advancement and global outreach of Predictive Homoeopathy. As the son and long-standing close collaborator of the late Dr. Prafull Vijayakar, he has systematically organized, refined, and expanded his father's ground-breaking body of work.

As Academic Director of Predictive Homoeopathy in Mumbai and a senior consultant, he specializes in managing severe chronic pathologies and organ diseases. Dr. Ambrish Vijayakar is renowned for his highly practical and structured teaching methodology, equipping practitioners with systematic case management tools capable of achieving consistent results even in advanced disease states.

He is an internationally acclaimed speaker whose teaching seminars are widely celebrated across India, South America, and Europe (including England, Switzerland, and frequent lectures in Regensburg, Germany).

What is Predictive Homoeopathy?

Predictive Homoeopathy was founded by the legendary Indian homoeopath Dr. Prafull Vijayakar. The methodology bridges Hahnemannian classical principles and Hering's Law of Cure with modern medical sciences, including embryology, genetics, immunology, and cellular pathology.
